EXECUTIVE SUMMARY & BUSINESS INSIGHTS

Key Business Insights

1. **Overall performance:** Total Sales are **\$12.64M**, while Total Profit is **\$1.47M**, producing an overall Profit Margin of **11.61%**.
2. **Category performance:** **Technology** generates the highest sales at approximately **\$4.74M** and the highest profit at approximately **\$663.78K**.
3. **Regional performance:** **Central** generates the highest regional sales and also leads regional profit performance.
4. **Product performance:** The dashboard shows a small group of products leading sales and profit, with **Canon** and **Cisco** products appearing among the strongest performers.
5. **Sales trend:** Monthly sales show a **clear upward trend**, reaching approximately **\$1.4M** toward the end of the period.

Business Risks

- **Low overall profit margin:** The 11.61% margin indicates that a relatively small portion of sales becomes profit.
- **Regional imbalance:** Sales and profit are concentrated more heavily in the strongest regions.
- **Category profitability differences:** Furniture has a substantially lower margin (**6.94%**) than Office Supplies (**13.69%**) and Technology (**13.99%**).

Business Opportunities

- Increase investment in **Technology**, which has the strongest category performance.
- Investigate and improve the profitability of **Furniture**.
- Use the upward sales trend to identify opportunities for continued growth.

Recommendations

1. Prioritize high-performing Technology products and categories.
2. Review Furniture pricing, costs, and product mix to improve its **6.94% margin**.
3. Develop strategies to increase sales in weaker-performing regions.
4. Focus marketing on the strongest-performing products and customer segments.
5. Monitor monthly sales and profit trends regularly to identify growth opportunities early.
